Laura, great work. I edited a bit. Am I hitting back too hard?

Mike and Dave:

Attached here and embedded below is a more fleshed-out version of potential messaging on mine adit. Please let me/Cynthia know if any revisions are needed so we can update it before presenting to Dave O. Not being a scientist, some of the language I use might not be correct, so feel free to revise as-needed, just please keep it readable to the average person on the street! 😊

Subject: Mine Adit Samples - 21September

Hi all,

Per last discussions with R8, they want to post the mine adit sampling data on the EPA website, but we will need some messaging on this first. We also haven't yet been authorized to share the data with La Plata county or agency partners.

I've looked at the data available and it seems we need messaging in these areas, here's a start on my thoughts – and I think a lot of this messaging is available.

Deliberative Process/Ex. 5

Also, Susan Griffin who was involved in developing much of this work will report to the ICP on Monday.

Thanks,

Mike

Personal Matters/Ex. 6

Cheers,

Mike
